His policy of <b>Lebensraum</b>, meaning 'living space' for ethnic Germans, was to expand the country into a 'greater Germany', to be known as the <b>Third Reich</b>.</li> <li>• In 1933, Hitler withdrew Germany from the <b>League of Nations</b>.</li> <li>• In 1935, the <b>Anglo-German Naval Agreement</b> was signed, granting Germany the right to expand its navy beyond the limits set by the Treaty of Versailles.</li> <li>• 1935 also saw Germany reintroduce <b>conscription</b>, increase the size of the <b>navy</b> and created an airforce (<b>the Luftwaffe</b>) – all breaches of the treaty. Yet, there were no steps taken by Britain or France to halt Germany's remilitarisation.</li> </ul>

<p><b>APPEASEMENT</b></p>	<ul style="list-style-type: none"> <li>• Britain and France did not react to Hitler's foreign policy for several reasons:               <ul style="list-style-type: none"> <li>• France <b>did not want to risk a war</b> with Germany over the Rhineland.</li> <li>• France believed the <b>Maginot Line</b> (French fortifications along its border with Germany) would be enough to prevent a German attack.</li> <li>• Many British people felt that the Treaty of Versailles had been <b>too harsh</b> on the Germans.</li> <li>• Britain dreaded another war and <b>voted for a pacifist (pro-peace) approach</b>.</li> <li>• France, Britain and others were concerned about the threat of communism and knew the Third Reich to be strongly <b>anti-communist</b>.</li> </ul> </li> <li>• This approach of agreeing to Hitler's demands in the hope of avoiding war was known as <b>appeasement</b>, of which Hitler took advantage.</li> </ul>

<p><b>THE TURNING OF THE WAR</b></p> <p><b>THE BATTLE OF STALINGRAD</b></p>	<ul style="list-style-type: none"> <li>• In late summer 1942, German forces were advancing towards the city of <b>Stalingrad</b> (modern day <b>Volgograd</b>), led by <b>General Paulus</b>. The Red Army was ordered to defend Stalingrad at all costs.</li> <li>• During the <b>winter of 1942-1943</b>, the Red Army cut the German forces off from their supplies. As German soldiers began to starve, Hitler denied General Paulus' request to retreat, insisting they continued to fight for Stalingrad; proving to be a decisive turn in the tides of the war.</li> <li>• In February 1943, the Germany Sixth Army finally <b>surrendered</b> to the Red Army.</li> <li>• It is estimated that <b>more than 800,000 Axis soldiers</b> (German, Italian, Romanian or Hungarian) and <b>1.1 million Russians</b> were either killed, wounded, missing or captured at Stalingrad.</li> </ul>

V-E Day	Victory in Europe Day, 8th May 1945.
V-J Day	Victory over Japan Day, 15th August 1945.

## Hitler's Foreign Policy

Adolf Hitler's foreign policy aimed at expanding German territory and establishing a "Greater German Reich." He aggressively pursued his goals through diplomatic means and military force, disregarding international treaties and agreements. Hitler's policies ultimately led to World War II, as his actions challenged the existing international order.

## The Anschluss

The Anschluss, meaning "union" in German, was the annexation of Austria by Nazi Germany in March 1938. Hitler's expansionist policies aimed to unite all German-speaking peoples under the umbrella of the Third Reich, and the Anschluss was a key step in this process. The annexation marked the beginning of Hitler's aggressive expansion in Europe.

## Appeasement and the Munich Conference

Appeasement was a policy pursued by Britain and France in the 1930s, aimed at avoiding war with Germany by accommodating Hitler's demands. The Munich Conference, held in September 1938, was a diplomatic meeting between Germany, Britain, France, and Italy, where the Sudetenland crisis was resolved through concessions to Germany. The Munich Agreement was widely criticized for appeasing Hitler's aggression and failing to prevent war.

## The Nazi-Soviet Non-Aggression Pact

The Nazi-Soviet Non-Aggression Pact was signed in August 1939 between Germany and the Soviet Union. The pact was a surprise to the international community and paved the way for the invasion of Poland. The pact allowed Hitler to start World War II without fear of a Soviet attack on his eastern front.

## The Fall of Poland

The Fall of Poland marked the beginning of World War II in Europe. On September 1, 1939, Germany invaded Poland, and Britain and France declared war on Germany. The German military's use of blitzkrieg tactics and overwhelming force quickly defeated the Polish army. The fall of Poland demonstrated the effectiveness of Germany's military strategy and highlighted the weakness of the Allied response.

## The Fall of France

The Fall of France occurred in June 1940, when Germany invaded and defeated France. The French army was quickly overwhelmed, and the French government surrendered to Germany. The fall of France marked a turning point in the war and demonstrated the power of Germany's military.

## The Battle of Britain and the Blitz

The Battle of Britain was fought between the Royal Air Force (RAF) and the German Luftwaffe over the skies of Britain in 1940. The RAF's victory in the battle prevented Germany from gaining air superiority and invading Britain. The Blitz was a German bombing campaign against British cities, which caused widespread destruction and civilian casualties.

## Operation Barbarossa

Operation Barbarossa was Germany's invasion of the Soviet Union in June 1941. The invasion was the largest military operation in history and aimed to defeat the Soviet Union and seize its vast resources. The invasion failed, largely due to the Soviet Union's resilience and the harsh Russian winter.

## Turning of the War - The Battle of Stalingrad

The Battle of Stalingrad was a major turning point in the war, where the Soviet Union defeated Germany in a brutal urban battle. The German army suffered heavy losses, and the defeat marked the beginning of the end for Germany's military dominance in the war.

## The US Enters the War

The United States entered World War II after the surprise attack on Pearl Harbor by the Japanese in December 1941. The attack led to the US declaring war on Japan, and subsequently Germany declared war on the US. The US entry into the war marked a significant turning point, as it provided much-needed resources and manpower to the Allies.

## War in the Mediterranean

The war in the Mediterranean was fought between the Allies and the Axis powers, and it was a critical theatre for control of the sea routes between Europe and North Africa. The German bombing campaign against British cities, which caused widespread destruction and civilian casualties.

## The Battle of the Atlantic

The Battle of the Atlantic was a naval campaign fought between the Allies and the Germans over control of shipping lanes in the Atlantic. The battle was fought from 1939 to 1945, and it was critical to the Allied war effort as it allowed for supplies to reach Britain and the Soviet Union.

## The D-Day Landings

The D-Day landings were a significant Allied operation in World War II, where Allied forces landed on the beaches of Normandy, France on June 6, 1944. The operation was a significant success and allowed for the Allies to establish a foothold in Europe, ultimately leading to the defeat of Germany.

## The War's End and the Impact of World War II

World War II ended on 2nd September 1945, after the US dropped atomic bombs on the Japanese cities of Hiroshima and Nagasaki. The war had a profound impact on the world, leading to the deaths of millions of people and the displacement of millions more. The war also marked the beginning of the Cold War, as tensions between the Soviet Union and the West escalated. The war led to the establishment of the United Nations, and it ultimately reshaped the global political landscape.

## Technological Developments

World War II saw the emergence of radar and jet aircraft, fundamentally altering the dynamics of aerial combat. J. Robert Oppenheimer spearheaded the Manhattan Project, leading to the development of the atomic bomb, a weapon of immense destructive power that the US used against Japan to end the war. In the field of computing and intelligence, the contributions of Alan Turing were paramount, particularly his work on the Colossus, the first programmable digital computer, crucial for code-breaking the Enigma Code. These groundbreaking innovations, ranging from atomic energy to computing, not only had a decisive impact on the outcome of the war but also paved the way for rapid technological progress in the post-war period.

## CAUSES OF WORLD WAR II

- **Hitler's Foreign Policies:** Hitler sought to:
  - **Defy the Treaty of Versailles** by rebuilding Germany's military and expanding territory.
  - Re-occupy the **Rhineland** (1936).
  - Unite all German speakers under **Lebensraum**, expanding the German Empire (Third Reich).
  - **Anschluss:** In 1938, Austria was absorbed into Germany.
- **Appeasement:** Britain and France used appeasement to avoid war, allowing Hitler's expansion.
- **Nazi-Soviet Non-Aggression Pact (1939):** Hitler and Stalin agreed not to attack each other and secretly partitioned **Poland**.

## KEY EVENTS OF WORLD WAR II

- **Blitzkrieg (1939):** Germany invaded **Poland**, using Blitzkrieg tactics. France and Britain declared war, starting World War II.
- **Fall of France (1940):** Germany invaded France using Blitzkrieg and forced a retreat at **Dunkirk**.
- **Battle of Britain (1940):** Britain's **RAF** defended against the **Luftwaffe**, forcing Hitler to abandon invasion plans.
- **Operation Barbarossa (1941):** Germany invaded the **Soviet Union**, but was halted by the harsh winter and Soviet resistance.
- **Pearl Harbour (1941):** Japan attacked the US naval base, bringing the **USA** into the war.

## TURNING POINTS

- **Battle of Stalingrad (1942-1943):** The Soviet victory was a turning point in Europe.
- **D-Day (1944):** The Allied invasion of **Normandy** opened a Western front against Germany, leading to the liberation of France.

## TECHNOLOGICAL DEVELOPMENTS IN WORLD WAR II

- **At Sea:**
  - Submarines and torpedoes were improved, and **radar** and **sonar** (ASDIC) technology were developed to detect submarines.
  - **Aircraft carriers** became essential for naval warfare, allowing planes to be launched from sea.
- **On Land:**
  - **Tanks** became crucial, with Germany developing powerful **Panzer** and **Tiger tanks**.
  - **Machine guns** like the German **MG 42** could fire 1,200 rounds per minute.
- **In the Air:**
  - Aircraft technology advanced with the British **Spitfire** and **Hurricane** planes. The US developed the **B-29 Superfortress**, and Germany created the first **jet fighter**, the **Messerschmitt ME 262**.
- **Atomic Bomb:** The US developed the atomic bomb through the **Manhattan Project**. Two bombs were dropped on **Hiroshima** and **Nagasaki** in August 1945, ending the war with Japan.

## THE END OF THE WAR

- **Victory in Europe (VE Day, 1945):** After the **Battle of the Bulge**, Hitler committed suicide, and Germany surrendered.
- **Atomic Bombs on Japan (August 1945):** The US dropped atomic bombs on **Hiroshima** and **Nagasaki**, forcing Japan to surrender (VJ Day).

## IMPACT OF WORLD WAR II

- Over **60 million deaths**, with **38-55 million** civilian casualties.
- Europe was devastated; cities like **Dresden** and **Leningrad** were destroyed.
- The **Cold War** emerged as tensions between the **USA** and **USSR** grew.
- The **United Nations** was founded to prevent future conflicts.

The poster below was issued by the British government to discourage parents living in cities from retrieving their evacuated children from the countryside. Study it and answer the questions that follow.

- In the poster, what is Hitler saying?
- Do you think this poster supports the Allied or the Axis powers? Explain your choice, supporting your answer with reference to the cartoon.
- Name one strength and one limitation of public information posters as a source for historians.
- From your study of either the course of World War I or World War II, describe the impact of war on people.
- Name one major technological innovation that occurred during World War I or World War II.
- How did technological developments during either World War I or World War II impact on people's lives after the war ended? Give two examples.

Summary

During World War II, Ireland maintained a policy of neutrality, which meant that the country did not take part in the conflict directly. However, the war still had a significant impact on the country, affecting the lives of the Irish people both economically and socially. One of the most noticeable effects of the war was rationing. The Irish government introduced rationing of food and other essential goods, such as fuel and clothing. This was due to the disruption of trade routes and shortages caused by the war. As a result, Irish citizens had to adapt to living with fewer resources and finding ways to make do with what they had. The fear of invasion also loomed over the country. Both the Axis and Allied powers were potential threats, and the Irish government was concerned about the possibility of attack. To prepare for this eventuality, civil defense organizations were set up, and air raid shelters were constructed in many parts of the country. The war also had social consequences. Many young men enlisted in the British armed forces to fight against the Axis powers. Some joined the Irish Republican Army (IRA) to fight for Irish independence. The influx of American troops to Ireland had both positive and negative effects. American soldiers brought an injection of money and resources to the Irish economy, but they also had a significant impact on Irish society, with some Irish women marrying American servicemen and moving to the United States.

Neutrality

During World War II, Ireland maintained a policy of neutrality, which meant that the country did not take part in the conflict directly. This policy was controversial, with some arguing that Ireland should have supported the Allies in their fight against Nazi Germany. However, the Irish government believed that neutrality was necessary to preserve Irish sovereignty and avoid being drawn into a conflict that was not of its making. Ireland's neutrality was tested during the war, with both the Allies and the Axis powers making attempts to influence Irish policy. However, the country managed to maintain its neutrality throughout the war, and it is generally regarded as having played a positive role in promoting international peace and cooperation.

Rationing

Due to the disruption of trade routes and shortages caused by the war, the Irish government introduced rationing of food, fuel, and clothing. This affected the daily lives of Irish citizens, who had to adapt to living with fewer resources. Rationing meant that certain foods, such as sugar and tea, were in short supply and could only be purchased with ration coupons. The rationing system also included restrictions on clothing and fuel, with people being encouraged to conserve resources wherever possible. Despite these measures, however, the Irish government managed to maintain a relatively stable economy and avoid some of the more severe shortages that affected other countries during the war.

Fear of Invasion

Both the Allied and Axis powers were potential threats to Ireland, and the Irish government was concerned about the possibility of invasion. Civil defence organisations were set up, and air raid shelters were constructed in many parts of the country. Irish citizens were encouraged to be vigilant and to report any suspicious activity to the authorities. Despite the fear of invasion, however, Ireland managed to avoid being drawn into the conflict directly, and the country's policy of neutrality helped to protect it from the worst of the war's consequences.

Social Change

The war had significant social consequences for Ireland. Many Irish men joined the British armed forces to fight against Nazi Germany, while others joined the Irish Republican Army to fight for Irish independence. The influx of American troops also had an impact on Irish society, with some Irish women marrying American servicemen and moving to the United States. The war brought changes to Irish culture and society, with new ideas and influences entering the country as a result of the increased external contact.

Economic Impact

The war had a significant impact on the Irish economy, with disruption to trade routes and a decline in tourism. Despite this, some sectors of the economy, such as agriculture, benefited from increased demand for food. The Irish government implemented policies to support the country's economy during the war, including the establishment of a trade agreement with Germany in 1939. Overall, the war had a mixed impact on the Irish economy, with some sectors thriving and others struggling.

Political Debates

The issue of Ireland's neutrality and its relationship with the United Kingdom were hotly debated during the war. Some believed that Ireland should support the Allies in their fight against Nazi Germany, while others argued that neutrality was necessary to preserve Irish sovereignty. The debate over Ireland's relationship with the United Kingdom also continued, with some arguing that the country should remain neutral in the conflict between Britain and Germany. Despite the disagreements, however, the Irish government managed to maintain a policy of neutrality and avoid being drawn into the conflict.

Aid to Refugees

Despite its policy of neutrality, Ireland provided aid to refugees fleeing the conflict, particularly Jewish refugees from Europe. This was in part due to the efforts of individuals such as the Irish diplomat, Monsignor Hugh O'Flaherty, who worked to provide assistance to refugees and prevent their deportation. The Irish government also established a number of refugee camps around the country to provide shelter and support to those in need. While the number of refugees in Ireland was relatively small compared to other countries, the country's efforts to provide aid to those in need were significant and reflected a sense of compassion and solidarity with those affected by the war.

Propaganda and Censorship

During the war, the Irish government imposed strict controls on the media, censoring news reports and propaganda in order to maintain a policy of neutrality. This meant that Irish citizens were limited in their access to information about the progress of the war and the actions of other countries. While the censorship was controversial and led to accusations of government censorship, it was seen as necessary by the Irish government in order to maintain a policy of neutrality and prevent the country from being drawn into the conflict.

Irish Soldiers in World War II

While Ireland maintained a policy of neutrality, many Irish citizens volunteered to fight in the war as part of the British armed forces or other allied forces. It is estimated that over 70,000 Irish men and women served in the British armed forces during the war, with many others joining allied forces such as the US Army. Irish soldiers fought in many of the key battles of the war, including the Normandy landings and the Battle of Monte Cassino. However, their contributions were often overlooked or downplayed in Irish society, as the country maintained its policy of neutrality and sought to distance itself from the conflict.

The Belfast Blitz

The Belfast Blitz stands as a stark reminder of the devastation of World War II, even as Ireland upheld its stance of neutrality. In April and May 1941, the city of Belfast in Northern Ireland was subject to a series of Luftwaffe air raids, marking it among the most heavily bombed cities in the UK during the war. These attacks resulted in immense destruction, with large swathes of the city severely damaged and tragically, over 1,000 people lost their lives. The Blitz also brought a significant number of Irish volunteers into active roles, as many from the Republic of Ireland crossed the border to assist in the aftermath of the bombings, showcasing a spirit of unity and humanitarianism transcending political boundaries. Despite the policy of neutrality, these events highlighted the complex and often poignant interactions between Ireland and the wider conflict engulfing Europe.

## NEUTRALITY IN WORLD WAR II

- **The Emergency:** Ireland remained **neutral** but secretly favoured the **Allies**.
  - Allied planes were allowed to fly over Donegal, and Ireland shared weather reports and intelligence with the Allies.
  - **Emergency Powers Act (1939):** Strict censorship and control over communications were introduced to ensure neutrality.

## LIFE IN IRELAND DURING THE EMERGENCY

- **Rationing:** Due to blockades, Ireland faced shortages of food, fuel, and clothing. Ration books were introduced to limit consumption.
- **Fuel Shortages:** Ireland turned to turf as an alternative to imported coal. Inspectors, known as **glimmer men**, checked households for fuel overuse.
- **Bombing Incidents:** Despite neutrality, Ireland was bombed accidentally by Germany (e.g., **North Strand** in Dublin, 1941).

## IMPACT OF WORLD WAR II ON NORTHERN IRELAND

- **Industry Boom:** Northern Ireland played a vital role in producing warships and aircraft. Unemployment fell as industries flourished.
- **Belfast Blitz:** Northern Ireland's industrial cities, particularly Belfast, were targeted by German bombers, causing heavy casualties and destruction.

## POST-WAR DIVIDE BETWEEN NORTH AND SOUTH

- **Strengthened North-Britain Ties:** Northern Ireland's contribution to the war effort strengthened its ties with Britain.
- **Deeper North-South Divide:** Ireland's neutrality during the war widened the divide between Northern Ireland and the Republic of Ireland.

Study the following cartoon, published by Punch magazine in 1940, and answer the questions that follow.

EAMON DEFYING THE LIGHTNING

- Describe two details that you see in the cartoon.
- Explain what neutrality is.
- What image does this present of Ireland and its decision to stay neutral in World War II?
- Give two other sources that a historian could use to learn about Ireland and its neutrality in World War II.
- From your study of how Ireland was impacted by World War I or World War II, describe Ireland's involvement (or lack of involvement) in one of those conflicts.
- From your study of Junior Cycle History, discuss the impact of war on the lives of Irish people, referring to either World War I or World War II.

### Question 7

**Source 1:** Pie charts showing the military deaths suffered by Allied and Axis countries as a percentage of total Allied and Axis military deaths during World War II.

Look at the two pie charts above and answer the following questions.

- (a) Which **two** countries suffered the highest percentages of total Allied military deaths in World War II?

- (b) What was the combined percentage total for Germany and Japan as a proportion of Axis military deaths in World War II?

**Source 2:** Table showing the estimated number of military and civilian deaths suffered by selected countries in World War II.

Country	Military Deaths	Civilian Deaths	Total
USSR	9,750,000	14,250,000	24,000,000
China	3,500,000	16,000,000	19,500,000
Germany	5,533,000	2,167,000	7,700,000
Poland	240,000	5,360,000	5,600,000
Japan	2,120,000	730,000	2,850,000
United Kingdom	383,600	67,100	450,700
USA	416,800	1,700	418,500

(c) Using Source 2, what was the total number of civilian deaths in the USSR during World War II?

(d) From Source 2, name **one** country that suffered more civilian deaths than military deaths.

## Question 7

Examine both the broadside poster from the National Library of Ireland's online catalogue and the telegram from the National Archives and answer the questions which follow.

*(Broadside posters were placed on sandwich boards outside shops to advertise newspapers.)*

Telegram from Joseph P. Walshe to William Warnock (Berlin)  
Dublin, 2<sup>nd</sup> January, 1941

Aircraft dropped incendiary and explosive bombs with German markings at Curragh this morning between six and seven. About same time bombs dropped in Terenure and in Borris Co. Carlow. Three people killed in Borris and seven injured in Terenure. Bombs dropped 9.45 last evening at Drogheda. About five planes in all took part. Presumption is all were German. Investigations proceeding.

You should immediately make vigorous protest in regard to Curragh bombing and point out once more detrimental effect of such incidents on relations between two countries and urge that instructions be issued at once that Irish territory is not in any circumstances to be overflown.

(a) What newspaper is the broadside poster advertising?

(b) What date is on the poster?

(c) Where was the telegram being sent to?

(d) What information does the poster have that the telegram is missing?

**Question 7**

*“If you are neutral in situations of injustice, you have chosen the side of the oppressor. If an elephant has its foot on the tail of a mouse and you say that you are neutral, the mouse will not appreciate your neutrality.”*

- (a) Is this quotation from Archbishop Desmond Tutu of South Africa an example of a fact or an opinion? Give a reason for your answer.

Select the war you have studied by ticking (✓) one of the boxes below. Then answer the questions that follow.

World War I

World War II

- (b) On the timeline below, indicate the start and finish years of the war you have studied and the dates of at least **two** other key moments during the war.

(c) Outline **two** causes of your chosen war.

(d) Describe **two** ways in which your chosen war had an immediate impact on ordinary citizens of the countries involved in the war.

## Question 8

This document is an extract from Neville Chamberlain's *Peace in Our Time* speech to the House of Commons, 30th September 1938.

*The Prime Minister:*

Before I come to describe the Agreement which was signed at Munich in the small hours of Friday morning last, I would like to remind the House of two things which I think it very essential not to forget when those terms are being considered. The first is this: We did not go there to decide whether the predominantly German areas in the Sudetenland should be passed over to the German Reich. That had been decided already.

Czechoslovakia had accepted the Anglo-French proposals. What we had to consider was the method, the conditions and the time of the transfer of the territory. The second point to remember is that time was one of the essential factors. All the elements were present on the spot for the outbreak of a conflict which might have precipitated the catastrophe. We had populations inflamed to a high degree; we had extremists on both sides ready to work up and provoke incidents; we had considerable quantities of arms which were by no means confined to regularly organised forces. Therefore, it was essential that we should quickly reach a conclusion, so that this painful and difficult operation of transfer might be carried out at the earliest possible moment and concluded as soon as was consistent, with orderly procedure, in order that we might avoid the possibility of something that might have rendered all our attempts at peaceful solution useless. . . .

Before giving a verdict upon this arrangement, we should do well to avoid describing it as a personal or a national triumph for anyone. The real triumph is that it has shown that representatives of four great powers can find it possible to agree on a way of carrying out a difficult and delicate operation by discussion instead of by force of arms, and thereby they have averted a catastrophe which would have ended civilisation as we have known it. The relief that our escape from this great peril of war has, I think, everywhere been mingled in this country with a profound feeling of sympathy.

**(a)** What was the purpose of the Munich Conference according to Neville Chamberlain?

**(b)** What had the Czechoslovakian government already agreed to before the Munich Conference?

**(c)** Why was avoiding an armed conflict so important according to Chamberlain? Refer to the document in your answer.

**(d)** What was the real triumph of the agreement according to the document?

**(e)** Why did Nazi Germany want to take over the Sudetenland from Czechoslovakia?

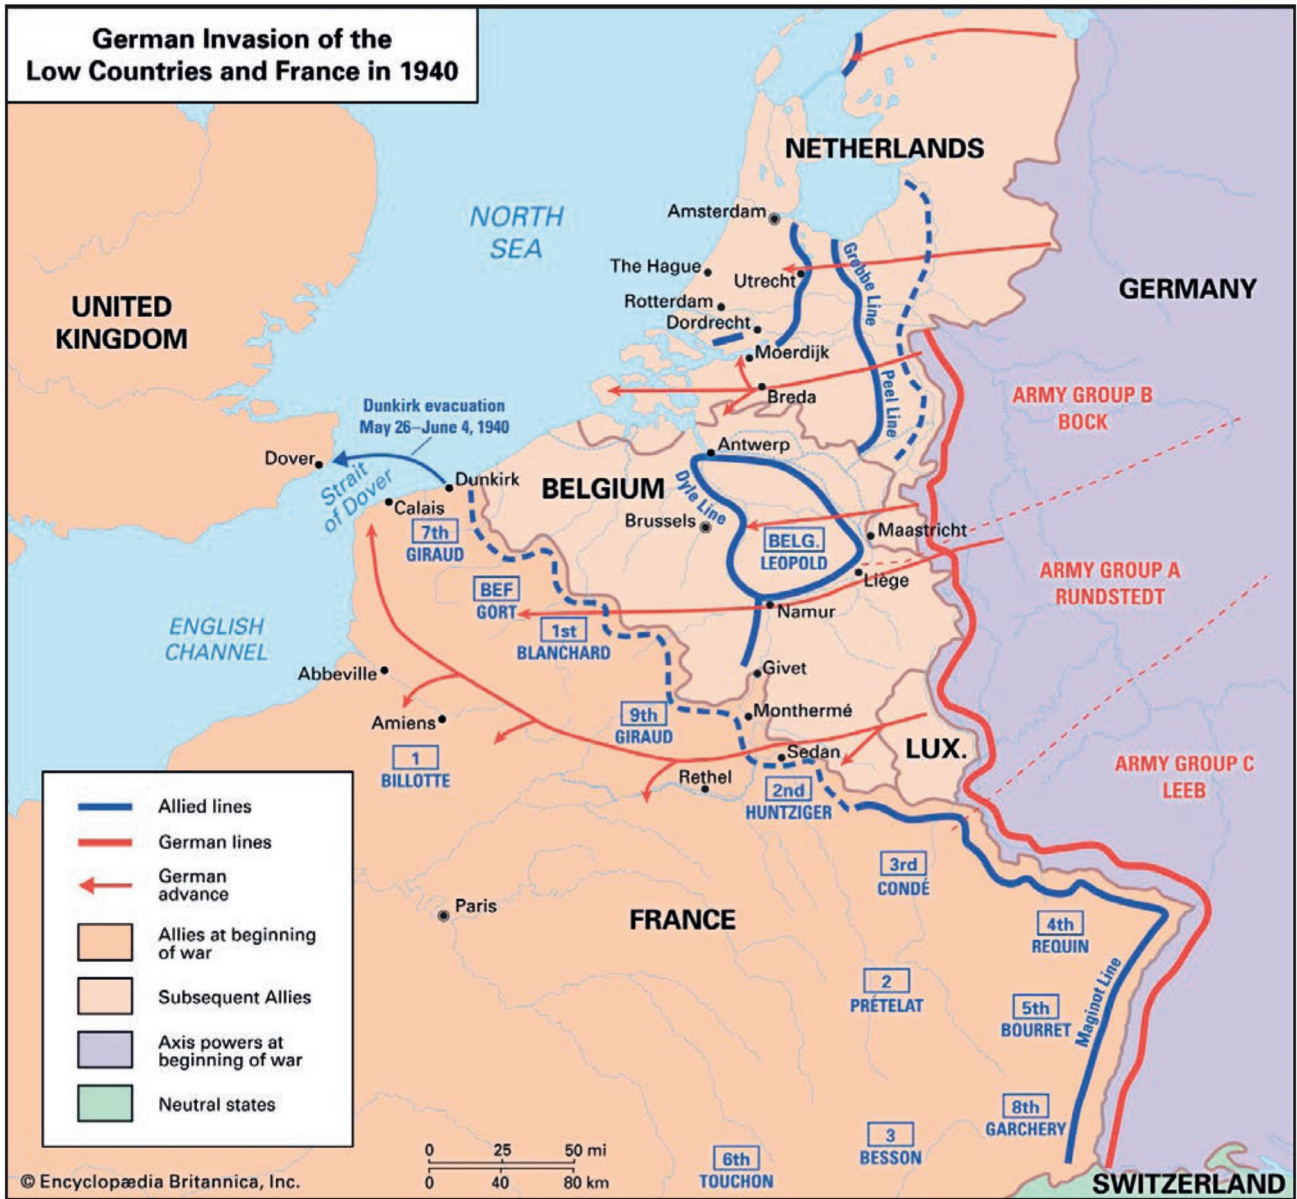

Question 8

Study the sources below and answer the questions which follow.

Source 1: A map showing the German Invasion of Belgium, Holland and France in 1940

Source 2: A photograph showing the allied leaders at the Yalta conference, 1945

Source 3: Germany's division amongst the Allied powers after World War 2

- (a) What was the name of the French defensive line between Germany and France as seen in Source 1 above?

- (b) What can you tell about the German invasion based on the evidence in Source 1 above?

- (c) Name any one of the three leaders seated in the picture in Source 2 above.

- (d) What was decided at the conference depicted in Source 2, and how was this reflected in the map as seen in Source 3?

Decision made at conference:
How reflected in map:

- (e) Why was Berlin divided into four zones like Germany after World War 2?

- (f) The sources above suggest a poor relationship between the USA and USSR in this period. Briefly explain the consequences this would have in the decades to come. In your answer you may use a specific event to highlight the growing tension between the USA and Soviet Union.

## Question 7

In this extract Hannah Healion recalls stories of her grandfather and uncle, who fought in World War I and World War II, respectively.

**“We are who we are, because they were who they were”**

“I don’t remember much, only bits of the stories that my mother told me. My grandfather, his name was Richard, he went to war. It was the First World War. I know that he lost a leg, but I don’t remember if I was told how that happened, it just happened in the war. His son Michael, my uncle, he was only 26 when he died. He was buried with the tri-colour over his coffin. I know that he was injured on the way back from the war, on board a ship I think. He was brought to a hospital in England.

I remember my grandmother told me that by some miracle her daughter, my aunt and Michael’s sister, was working in the same hospital that he was brought to, and he died in his sister’s arms. They were also very lucky to get him home and lay him to rest. I suppose I should have written it all down, that way I might have more information.”

- (a) According to the extract above, which war did Richard Prendergast fight in?

- (b) In what two ways did the speaker’s grandmother consider their family fortunate when she lost her son Michael?

1.
2.

- (c) Who do you think is pictured using the wheelchair? Give a reason for your answer based on the written text.

- (d) Using evidence from the extract above, give one strength and one weakness of oral history as a source of evidence for historians.

Strength:
Weakness:

Study this commemorative certificate received by Michael Prendergast’s family.

- (e) Who is responsible for the commemoration of Michael Prendergast’s part in World War II?

- (f) From what you have learned in Junior Cycle history, why is it important to commemorate events from the past?
